

Protecting Your Property

If your property is in a flood risk area or has been flooded, when undertaking renovations or improvements, or repairing flood damage, please bear in mind the advice listed on this page.

If floodwater is more than 0.6m deep, you may cause more harm than good by keeping the water out. The force of the water may cause structural damage to your home or business so bear this in mind when considering property flood protection measures.

To minimise water entering the property:
